Federal Torts Claims Act case: to be filed

Dear Director Mueller,

My name is Carol Nye-Wilson. I am nearly 72 years old. My husband is 61 and a 100% disabled veteran. As an American, I have an enduring belief that I can write to my representatives and they will respond to me.

Enclosed are my recent letters I've written to President Obama, U.S. Attorney General, Eric Holder, Secretary of State Hillary Rodham Clinton, and others. We have over 60 boxes of materials spanning a timeline of over eleven years, including about 1 terabyte worth of records/sound recordings/video. We have created a website called www.educationalfraud.com. We are going public about the related government corruption that recently escalated due to unprofessional abuse against me by an U.S. Attorney, James Scharf, and we are not going to be silenced by the government about any of it.

We are tired of being bullied, harassed and threatened for standing up for our civil rights, for our refusal to go along with corporate and educational fraud perpetrated against us that was designed to cover up criminal activities, insurance fraud, money laundering, and government fraud.

My son has lost everything for standing up and refusing to go along with others. He has lost his home, his land, and his things. He is divorced because his British wife did not understand an American's compelling sense to fight for his civil rights—his life, liberty, pursuit of happiness. He has not seen his American son since Nov, 2010, because his British wife is withholding little Joel from our son, in spite of the requests by the U.S. Embassy in London for her to reestablish communications between my son and Joel.

We refuse to be part of the cover up the government condoned and has perpetuated by withholding records from us after they rubber stamped accreditation agencies who condoned the original cover up that Western Seminary demanded.

Respectfully submitted,

/s/

Carol Nye-Wilson
