Re: Nondiscrimination on the Basis of Sex in Education Programs or Activities Receiving Federal Financial Assistance

I am aware Brittany Bull received my statement on January 18, 2019. I am also aware that it was routed within the Department and to James Scharf. I am also aware that others are aware of this statement due to the Department and Scharf making them aware of the statement. January 18, 2019 will be used for future references moving forward as a result.

At each and every step, the Department in conjunction with the DOJ/Scharf has made this case worse, causing ever-increasing problems, and damages to parties by playing politics rather than enforcing the laws and regulations as they were written. Issuing and defending lies, half-information and misrepresentations to 3rd parties and the court have now reached its peak, with outright fraud against the court. There appears to be no end in sight as to the level of corruption both the Department and the DOJ/Scharf is willing to take this case to cover up what has happened and has been caused.

By obstructing justice and playing politics, the Department in conjunction with the DOJ and most certainly Scharf has created a situation that can no longer be resolved in the courts or administratively. This should be well understood by now, as the actions by the Department and most certainly Scharf ended this possibility in 2012.

Western Seminary, et al will be held accountable and must pay for what it has done. What needs to be done, must be done.
